

DIGITAL INCLUSION

Digital Champions

Housing Co-Design

Do you work or volunteer in a housing organisation, or support people to access housing services in Scotland?

Are you interested in learning more about helping tenants and customers access digital supports and develop confidence in using digital to improve their health and wellbeing?

We invite you to be part of our co-design process exploring Digital Champion training in housing. Sessions will take place via Zoom. If you are able to make both sessions that's great. If not, your contribution will still be hugely significant for one session.

Session 1: Making sense of digital inclusion in a housing setting.
Tuesday 18th July 9:30am – 11:30am

Session 2: Exploring the digital inclusion journey in a housing setting (review of input from Session 1)
Wednesday 26th July 9:30am – 11:30am

All participants will be invited to attend the free training session when they launch in September 2023.
